PROFESSIONAL EXPERIENCE

Front End Software Engineer, 14W / The Oxford Club April 2017 - Present

- Designed and developed mobile-friendly websites utilizing **ReactJS, Next JS, Tailwind CSS, and Contentful headless CMS**, employing innovative approaches beyond conventional methods to ensure secure and high-quality production code.
- Led **content modeling and brainstorming sessions**, resulting in optimized content structures and enhanced development efficiency.
- Implemented **GraphQL queries** to create robust APIs, contributing to the seamless functioning of applications.
- Facilitated peer coding sessions to foster knowledge sharing and collaboration, resulting in improved code quality and efficiency.
- Developed a **lead generation survey application** using ReactJS and Tailwind CSS, leading to a notable 10% increase in survey completion rates and valuable lead acquisition.
- Led the development team for one of the franchises at Oxford Club (Manward Press), overseeing system design, application development, testing, and operational stability.
- Enhanced existing WordPress themes and developed 12 new responsive websites, driving overall website performance and user engagement.
- Effectively coordinated the data migration to a new CMS, achieving an outstanding **95% success** rate in transferring data while minimizing downtime throughout the transition process.
- Designed and developed websites tailored for webinars, resulting in increased participant engagement and positive feedback.
- Ensured product requirements were met by effectively communicating with stakeholders and employing Agile Methodology, achieving a 100% success rate in timely project deliverables.
- Contributed to PR reviews, ensuring code quality and adherence to coding standards, resulting in a 10% improvement in overall codebase robustness.
- Provided valuable assistance to team members, fostering a collaborative and efficient work environment.
- Collaborated with cross-functional teams including architects, UI/UX designers, engineers, QA, and support, aligning design and development strategies with the product vision.

Web Developer Intern, 14W / The Oxford Club May 2016 – April 2017

- Maintained existing WordPress themes resulting in overall improvement in website performance and user engagement.
- Designed and implemented **lead generation ads and email templates**, resulting in 15% increase in subscriber base.
- Developed lead generation landing page templates and integrated lead generation forms, contributing to a **15% increase in lead conversion rates**.
- Conducted thorough **audits of existing websites**, discovering, and addressing vulnerabilities and bugs, enhancing overall website security and performance.
- Handled everyday support tasks, providing timely solutions to **5-6** support requests daily.

Web Developer, Myware Solutions Pvt. Ltd, India Mar 2013 - Nov 2014

- Constructed innovative websites in a team of **2** with mobile responsive webpages using **HTML, CSS and JavaScript** resulting in a **20% improvement** in website responsiveness and user experience.
- Designed, developed and deployed new websites based on **PHP, WordPress and MySQL**, resulting in a **40% increase** in site functionality and improvement in overall performance.
- Interacted with clients to **define business requirements and project scope**, leading to a comprehensive understanding of client needs.
- Involved in **unit, integration, regression and UAT** testing, ensuring the robustness and reliability of application.

CERTIFICATIONS AND ACHIEVEMENTS

Oracle Certified Associate, React and Next JS Course, Udemy

HOBBIES

- Painting, Cooking, Gardening
